

Assembly & Installation Guidelines Built-in Wardrobe — Galleria BIR4.9

Please read these guidelines carefully before installing and using the product.

SAFETY INFORMATION

- Always wear appropriate safety equipment.
- This product requires two people for installation.
- If this product falls down, serious or fatal crushing injuries can occur. This product should be permanently fixed to the wall – contact your local fastening device retailer for advice on what fastening devices are suitable for your walls.
- Assembly should be carried out by an appropriately skilled person, due to the risk of wrongful assembly leading to injury or damage.

ITEMS INCLUDED IN THE BOX

TOWER SHELL BOX

16 x cams
20 mm diameter

1 x deck
575 mm W x 447 mm H x 16 mm D

16 x cam bolts
16 mm H x 6 mm diameter

2 x drawer tower sides
2000 mm W x 447 mm H x 16 mm D

1 x shelf nailer
575 mm W x 95 mm H x 16 mm D

1 x front toe
575 mm W x 95 mm H x 16 mm D

2 x nailers
575 mm W x 95 mm H x 16 mm D

1 x fixed shelf
575 mm W x 447 mm H x 16 mm D

16 x adjustable shelf pins
10 mm W x 14 mm H x 13 mm D

TOP SHELF BOX

1 x top shelf
Up to 3000 mm W x 447 mm H x 16 mm D

1 x back cleat
Up to 3000 mm W x 95 mm H x 16 mm D

1 x hanging rail
3000 mm W x 35 mm diameter

2 x side cleats
425 mm W x 95 mm H x 16 mm D

Fast caps (white dots)
14 mm diameter

8 x hanging rail screws
16 mm H x 6 mm diameter

4 x hanging rail brackets
45 mm H

ADJUSTABLE SHELVES BOX

2 x adjustable shelves
575 mm W x 447 mm H x 16 mm D

DRAWER RUNNERS BOX

4 x drawer side (left)
400 mm W x 175 mm H x 14 mm D

4 x drawer side (right)
400 mm W x 175 mm H x 14 mm D

4 x drawer runner clip (left)
103 mm W x 53 mm H x 17 mm D

4 x drawer runner clip (right)
103 mm W x 53 mm H x 17 mm D

4 x drawer front clip (lower)
54 mm W x 40 mm H x 7 mm D

4 x drawer front clip (upper)
52 mm W x 62 mm H x 11 mm D

4 x drawer side cover cap (bottom)
44 mm W x 17 mm H x 1 mm D

4 x drawer side cover cap (top)
44 mm W x 12 mm H x 1 mm D

4 x drawer runner (left)
400 mm W x 47 mm H x 47 mm D

4 x drawer runner (right)
400 mm W x 47 mm H x 47 mm D

4 x drawer rear bracket
30 mm W x 11 mm H x 15 mm D

drawer screw #1
6G x 16 mm CSK

drawer screw #2
6G x 13 mm CSK

drawer screw #3
6G x 14 mm CSK

drawer screw #4
6G x 10 mm CSK

34 x Euro screw

BACK, BASES AND FRONT BOX

4 x drawer bases
556 mm W x 390 mm H x 16 mm D

4 x drawer backs
535 mm W x 148 mm H x 16 mm D

4 x drawer fronts
602 mm W x 253 mm H x 16 mm D

HANDLES BOX

4 x drawer handles

4 x drawer handle bolts
47 mm H x 5 mm diameter

EXTRA ITEMS AND TOOLS REQUIRED CHECKLIST

These items are readily available from all major hardware stores.

Drill and No.2 Phillips head driver <input type="checkbox"/>	Builder's square <input type="checkbox"/>
Multi tool <input type="checkbox"/>	Countersink drill bit <input type="checkbox"/>
Stepladder <input type="checkbox"/>	Hammer <input type="checkbox"/>
Phillips head screwdriver <input type="checkbox"/>	Liquid Nails <input type="checkbox"/>
Spirit level <input type="checkbox"/>	Gapping <input type="checkbox"/>
Measuring tape and pencil <input type="checkbox"/>	Packers <input type="checkbox"/>
Circular saw <input type="checkbox"/>	6-gauge 40 mm screws <input type="checkbox"/>
Silicone/caulking gun <input type="checkbox"/>	6-gauge 13 mm screws <input type="checkbox"/>
Stud finder <input type="checkbox"/>	6-gauge 28 mm screws <input type="checkbox"/>
3 mm drill bits <input type="checkbox"/>	Wallmates <input type="checkbox"/>

IMPORTANT BUILDING TERMINOLOGY

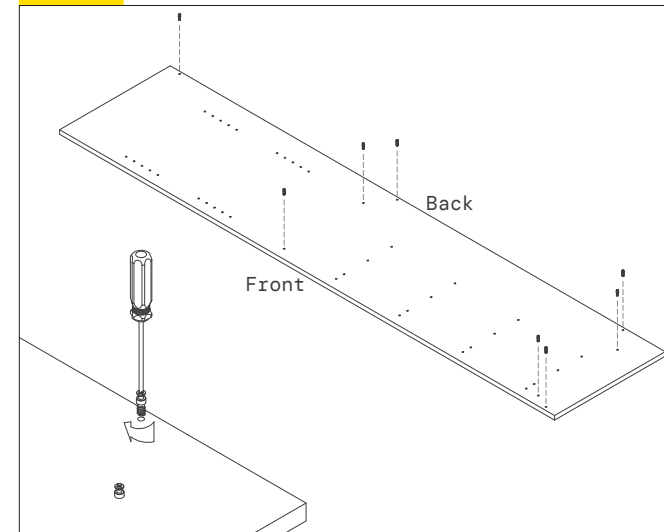

In construction, tradespeople use terms like 'square', 'level' and 'plumb' to be sure that their measurements are accurate, and the finished project is successful. Here are some definitions of common building terminologies.

- Square:** when corners are 90 degrees.
- Level:** straight from side to side, like a shelf that's been properly installed.
- Plumb:** straight up and down, like the walls of a building.
- Flush:** when two adjoining surfaces are perfectly flat next to each other.
- Skirting:** a board that runs along the border between the interior wall and the floor.
- Architrave:** is used to frame windows and openings to conceal any shrinkage or movement that may occur between the wall and the casing within the door surround.
- Jamb:** is a flat surface that runs vertically on each side of the door frame.
- Scribe:** cutting away the waste material that is preventing two materials from meeting together perfectly.

IMPORTANT INFORMATION

- Pre-drill board and countersink before fixing to walls.
- Read guidelines carefully before commencing.

Step 1

Open tower shell box.
 Screw in cam bolts into drawer tower sides (both sides).

Step 2

Hammer cams into nailers, toe, deck and fixed shelf.

Step 3

Place nailers over cam bolts and tighten.
Place deck over cam bolts and tighten.
Place fixed shelf over cam bolts and tighten.

Step 4

Place side on top over cam bolts and tighten cams.

Step 5

Open drawer, runners box and backs bases and fronts box.
Layout all parts to assemble drawers.

Step 6

Fix runners L (B) and R (H) to tower sides, screwing euro screw into third hole in top row (Exploded image).

Step 7

Slide drawer sides A and G into drawer base.
 Slide drawer back to the inside of the brackets.

Step 8

Secure drawer back to bracket using screw.
 Drawer screw – 6Gx13 mm CSK (10)

Step 9

Fix bracket M and D to drawer fronts.
 Drawer screw – 6Gx16 mm CSK (8)
 Open handles box.
 Fit handle to the drawer front.

Step 10

Engage drawer front to drawer sides.
(click sound include)
Fit cover plates L and E.

Step 11

Screw drawer sides to drawer base.

Step 12

Screw adjustment brackets C and K
to drawer base.
Drawer screw – 6Gx16 mm CSK (6).

Step 13

Fully extend runner. Place drawer on runner
and push drawer all the way in until you hear
a click.
Drawer is now engaged to runner.

Step 14

Drawer adjustment:
Align drawers using the up down to the side adjustment.
1a tilt drawer up and down at back.
1b and 1c moves laterally.
1d moves drawer up or down.

Step 15

If required, to remove the drawer, extend the drawer, place hands under drawer, locating the brackets on each side and push levers in on drawer. This will release, lifting drawer off runner.

Step 16

Check wall for plumb, place level on wall.
If wall greater than 3 mm out of plumb, scribe infill.

TIP: Refer to our guide – How to scribe infill.
All our guides are located at:
stegbar.com.au/support

If required, using the 6 x 28 6-gauge screws, screw 16 mm infill to wall side of shelf unit flush with the front.

Step 17

Measure the width and depth of tower and mark skirting with pencil (be sure to include the infill if infill required).

Step 18

Use multi tool to cut and remove skirting where tower to be installed.

Step 19

Pre-drill 2 x 3 mm holes into tower nailer. Place tower in position. Place level on tower to ensure level and plumb.

Mark wall with pencil.

Fix 40 mm screw into stud – if stud is not present, then fix with screw and plug (wallmate).

TIP: Use packers to level tower.

TIP: Pre-drill board and countersink.

Step 20

Use spirit level to mark horizontal line from top of shelf unit across full width of rear wall for back cleat and side cleat positioning.

Locate wall studs with stud finder and mark wall above pencil line (no greater than 16 mm).

Step 21

Open top shelf box.

Apply liquid nails to back of side cleat in radio wave pattern and screw cleat to wall into stud.

If stud is not present, then fix with screw and plug (wallmate).

Step 22

Measure distance from tower to side cleat.
Cut back cleat to size.
Apply liquid nails to back of cleat in
radio wave pattern and screw cleat to
wall into stud.

TIP: Pre-drill board and countersink.

Step 23

Measure top shelf width ensuring you check
the walls are square using a square edge.
Cut top shelf to correct size allowing for wall
run outs.
Place top shelf into position screw top shelf
down into wall cleats using 40 mm screws.

TIP: Pre-drill board and countersink.

Step 24

Measure 214 mm off cleat on back wall and 80 mm down from side cleat, thus measurement is to the bottom hole of hanging rod end.

Fix hang rail ends using 16 mm screws.

Repeat on tower side.

Step 25

Measure distance between board (tower to side cleat) and deduct 6 mm off overall width.

Cut hang rail to size and insert into hanging rail end ends.

TIP: Face top hang rail with groove up – if double hang face down.

Step 26

Using caulking, gap all connections between board and wall or board and board.

TIP: Only gap top shelf if under 1800 mm high.

Step 27

Open adjustable shelves box.

Install adjustable shelves.

Place shelf pins into tower at desired heights.

Place shelf on pins.

Step 28

Fast cap (white dot) all screws.

Clean shelving with damp cloth and remove stickers.
