

Windows
and Doors

Stegbar windows and doors meet all regulatory requirements for both bushfire and energy efficiency, while not compromising on aesthetics or functionality.

No matter what bushfire zone you are building in, from BAL 12.5 to BAL 40, Stegbar has a window and door range that has been developed to meet the specific performance criteria.

Depending on the house and the location, Stegbar will tailor a window and door selection that is affordable, compliant and uncompromising.

Stegbar product type and material options available in designated bushfire attack levels.	BAL-12.5				BAL-19				BAL-29				BAL-40
