CREATE & DESIGN

WE UNDERSTAND THAT CHOOSING A COLOUR FOR YOUR ALUMINIUM WINDOWS AND DOORS REQUIRES CAREFUL CONSIDERATION. THAT'S WHY OUR RANGE OF COLOURS HAVE BEEN DESIGNED TO ENSURE YOU HAVE THE OPTIONS TO COMPLEMENT THE STYLE AND DESIGN OF YOUR HOME.

In addition to our standard range, we also provide you the freedom to choose from a wide range of anodised or custom powdercoat finishes so you can create the perfect colour scheme for your home.

- Designed for Australian conditions and residential applications
- Colours available that match Colorbond® Steel
- Powdercoating comes in a range of finishes, including matt, satin and gloss
- Stegbar's Aluminium powdercoating is durable, virtually maintenance free, with outstanding colour fastness
- Anodised colours offer a metallic appearance that has inherent resistance to the elements

CHOOSING A COLOUR PALETTE

WHETHER YOU WANT TO COMPLIMENT YOUR BUILDING COLOUR OR CONTRAST WITH IT, THE COLOUR AND FINISH OF YOUR WINDOWS AND DOORS IS AN IMPORTANT CONSIDERATION.

- **Neutral colours often work best.** Not only do they help your home blend with the streetscape but the colour you choose for your windows and doors will also appear on the inside of your home. By choosing something neutral, you will avoid conflict with interior colour palettes.
- **Match to the era of the home.** By matching the colour palette of your windows and doors to the architecture and era of your home you can easily ensure longevity of your colour choice.
- **Consistency is key.** Ideally the exterior colour scheme of a building should include three shades: a dominant shade (the main shade of the walls), an accent colour (doors or shutters) and a trim colour (window frames, door frames, gutters, down pipes, guttering). By choosing colours that match in tonally and complement each other you can achieve a unified look for the home.
- **Take inspiration from surroundings.** If you live in a leafy neighbourhood, your colour choice can take cues from the surrounding landscape, or if your neighbourhood is dominated by homes from the Victorian era you may wish to be inspired by these colour palettes.

ENJOY COMPLETE FREEDOM OF DESIGN BY CUSTOM SELECTING THE COLOUR AND FINISH OF YOUR WINDOWS AND DOORS

CARE & MAINTENANCE

YOUR ALUMINIUM WINDOWS AND DOORS OFFER A LIFETIME OF GOOD LOOKS DUE TO THEIR RESISTANCE TO THE ELEMENTS. HOWEVER A REGULAR CLEAN WILL PROTECT YOUR INVESTMENT AND MINIMISE THE EFFECTS OF WEATHERING.

- To clean your aluminium wash down with a solution of warm water and non-abrasive, pH neutral detergent. You can use a soft cloth, sponge or a soft natural bristle brush. Rinse thoroughly after cleaning to remove any residue.
- For environments of high corrosion such as beach front homes, cleaning should occur at a minimum of every 3 months.
- Areas that are sheltered need to be cleaned more often as salt or other pollutants can build up and will not be washed away with rainfall.
- For non-hazardous environments, like rural or urban areas, the aluminium should be cleaned at least every 12 months.

All colours shown are representative of actual powdercoat colours and may vary in colour and gloss due to printing processes.

EXPLORE THE RANGE

**FOR A PERSONALISED FINISH FOR YOUR HOME OR PROJECT
WE HAVE A RANGE OF STANDARD AND CUSTOM COLOURS
AVAILABLE.**

Our range of standard colours are available in stock and have a shorter lead-time. Custom colours or other colours not shown here will attract a premium price and longer lead-times may occur.

Matt, Satin and Gloss availabilities vary from state to state please check with your local branch to find out what finishes are available in your local area.

* Contact your local branch for the µm (micron) level used in Anodised Clear, as it varies per state. For further information, talk with your Stegbar Representative.
