ALUMINIUM OPENS THE DOOR

THERE'S NOTHING MORE IMPACTFUL THAN A PIVOT STYLE FRONT DOOR TO MAKE A DRAMATIC DESIGN STATEMENT. IT AFFORDS DESIGN OPTIONS THAT ARE ANYTHING BUT STANDARD.

However, up until now, most builders and homeowners have been limited in their pivot entry door choices to timber options.

Now aluminium pivot entry doors are available from Stegbar – Australia's most trusted name in door and window design.

Featuring wide chair rail design and glass panel choices, this state-of-the-art door system comes with the added benefits of sturdy construction, is maintenance free, energy efficient and available in a wide choice of powdercoat colours and anodised finishes.

And, to deliver pure street appeal, the Statesman Aluminium Pivot Door is available in sizes up to 1200mm in width.

- Wind and Water rated to N3 conditions
- Energy efficient
- BAL40 Bushfire rating (BCA and AS3959)

Please note: BAL40 Statesman door must be screened externally with a corrosion resistant steel screen.

THE STATESMAN STATEMENT

**INNOVATION
BUILT IN**

PIVOTAL FEATURES

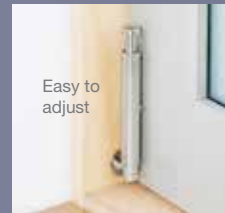

CONTEMPORARY HANDLE

Elegant design meets practical action. The handle design is safe for hands and provides a solid strength in size and construction to complement the proportions of the door and chair rail widths.

ADJUSTABLE PIVOT

Apart from its innovative design aesthetic, the brushed stainless steel hinge adjusts up, down and sideways for practical installation and operation.

SELF-DRAINING SILL

Clever design keeps the elements out! If water drips into the sill channel, it will drain through drainage holes into the sill to the outside. The drainage flap acts as a one way valve preventing wind or water entering through the door.

Please note: Meranti timber is used for framework in Western Australia.

OPENING YOUR OPTIONS

COLOUR OPTIONS

The Statesman Aluminium Pivot Door is available in the standard powder coat colour range. Speak to a Stegbar representative to discuss your colour choice.

HANDLE OPTIONS

Contemporary Pull Handle*

French Door Handle

*Contemporary Pull Handle not suitable for use with flyscreen.
