

EnviraLuxe Aneeta Sashless

Thermally broken aluminium

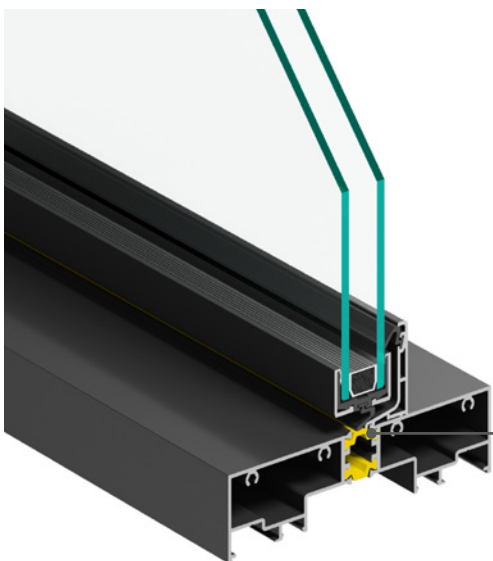

SLEEK GLAZING WITH BUILT-IN THERMAL PERFORMANCE

The EnviraLuxe Aneeta Sashless window combines the clean, uninterrupted look of fixed glazing with the practicality of an operable window system.

Featuring lightweight aluminium framing and advanced thermal break technology, it delivers strong energy performance with U-values as low as 2.0.

- Thermally broken frame and inner section to reduce heat transfer
- Double glazing as standard for improved insulation and energy efficiency
- Designed to support year-round comfort in a range of climates
- Compatible with other EnviraLuxe window systems for consistent design across the home
- Two-pane configuration with a vertical sliding operation
- Minimalist, sashless appearance for unobstructed views
- 22mm glazing pocket to accommodate high-performance energy-efficient and acoustic glass
- Wide range of glazing options to enhance comfort, privacy, security and acoustic performance
- Slimline, integrated lift handle for a clean, seamless finish

Thermally Broken Frames

Prevent heat transfer, improve energy efficiency, and offer low maintenance and durability.
