

Accessible Sliding Door

eX Hybrid and Residential Range

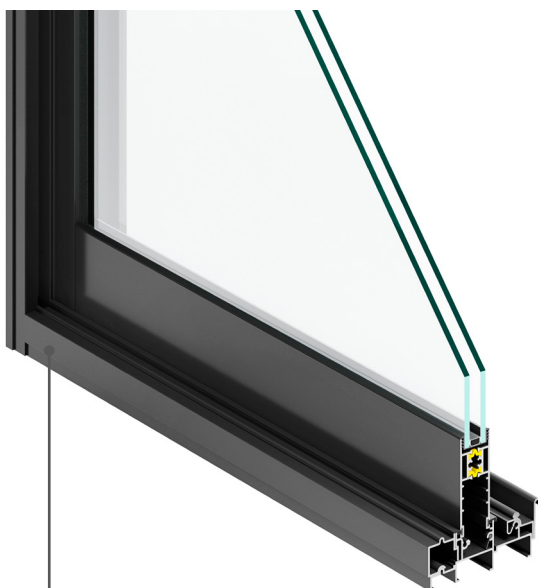

STEGBAR

WHERE ACCESSIBILITY MEETS INNOVATION

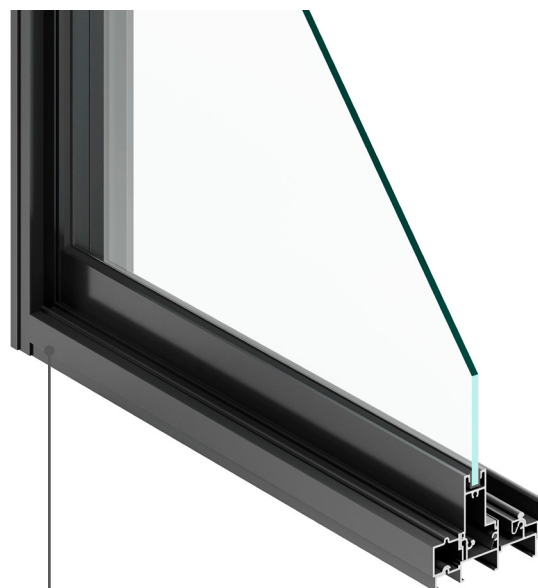

Engineered with inclusion and independence in mind, the new Accessible Sliding Door delivers a smarter design for modern living. Available in both our eX Hybrid and Residential ranges, it features inclusive design elements developed in consultation with industry experts, making it easier for everyone to enjoy secure, comfortable access at home without compromising on performance or aesthetics.

- The door meets AS1428.1, NCC, DDA, Liveable Housing Australia, and all NDIS SDA compliance requirements
- A flat, accessible sill provides step-free entry when rebated or ramped
- An ergonomic D-handle with 60mm clearance and raised snib lock allows for easy one-handed operation
- A full-width contrasting motif on the glass improves visibility for people with low vision
- The door slides smoothly with minimal force, meeting AS1428.1 operating load standards
- Installation is simple and cost-effective with no commercial sub-framing or drainage required compromising on durability.
