FOR WINDOWS & DOORS

WHETHER TO LET LIGHT IN THROUGH AN INTERNAL COURTYARD OR KEEP PRYING EYES OUT OF AN ENTRANCE, STEGBAR HAS BEAUTIFULLY CRAFTED GLASS SOLUTIONS TO SUIT EVERY APPLICATION.

Personalising your home involves intimate decisions that can significantly alter your family’s comfort and lifestyle. So, when it comes to selecting the right glass for your windows and doors, rely on Stegbar’s 70-plus years of experience and expertise.

Stegbar’s extensive range of high-quality glass is a popular choice for builders, renovators and homeowners for good reason.

No matter what you need, we have a glass solution for you:

- Comfort Glass for optimum energy efficiency
- Serenity Glass for calm and peaceful acoustics
- Secure Glass for protection and security
- Private Glass for complete privacy

FOR A RANGE OF GLASS FOR WINDOWS AND DOORS TO SUIT, OR TRANSFORM, ABSOLUTELY ANY LIVING SPACE, IT HAS TO BE STEGBAR.
COMFORT
ENERGY EFFICIENT GLASS
COMFORT
ENERGY EFFICIENT GLASS

THE STEGBAR COMFORT GLASS RANGE OFFERS JUST THAT, A RELIABLY COMFORTABLE HOME IN ALL SEASONS. WHETHER IT’S TO KEEP THE HEAT OUT IN SUMMER, OR IN DURING WINTER, STEGBAR’S RANGE OF TONED, LOW E AND DOUBLE GLAZED GLASS WILL ENSURE YOUR HOME REMAINS PERFECTLY LIVEABLE ALL YEAR ROUND.

On top of providing general well-being, you’ll also enjoy savings on your energy costs. Which is not only good for you, but the environment as well.

• Improve the comfort of your home
• Reduce your energy bills* (Source: Australian Window Association)
• Improve your home’s energy rating – helps to achieve a 6-star rating

COMFORT GLASS COMPARISON

TONED GLASS

• Control light and heat
• Perfect for windows that face the summer sun
• Great for waterfront homes, minimises glare
• Reduces the need for air conditioning
• Colours include grey, bronze and green
• Variety of tones to suit your interior and exterior design

LOW E GLASS

• Low E has a transparent coating that reflects heat and cold
• Provides great comfort in all seasons with better insulation and solar protection
• Allows maximum light to pass through
• UV protection reduces fading on furniture, carpets and window surfaces
• Can be incorporated into double glazing for increased insulation
• Laminated and single glazed options available

DOUBLE GLAZING

• Offers thermal insulation, security and noise reduction
• Options include air or gas filled for improved performance
• Eliminates condensation that can damage timber, carpet and flooring
• Create large openings that achieve 6-star energy rating
• Spacer widths can be adjusted to enhance insulation
• Perfect for colder climates such as Australia’s southern states

*Reduction in energy bills is variable based on your house type, location and personal energy consumption. See awa.org.au for specific details.

TO TURN YOUR HOME INTO A PEACEFUL SANCTUARY IT HAS TO BE STEGBAR SERENITY GLASS

A. Clear Laminate
B. Grey Laminate
C. Translucent Laminate
D. Double Glazed

THE STEGBAR SERENITY GLASS RANGE IS BOTH A SMART AND STYLISH WAY TO BRING PEACE AND QUIET TO YOUR HOME.

Whether it’s to hush the hustle and bustle of the inner city or to create a sense of separation between your internal living and outdoor entertainment areas, Stegbar has a suite of acoustic glass options to help evoke tranquility in your home.

• Minimise outside noise entering the home
• Perfect for homes in urban environments with busy streets, under flight paths or noisy neighbours
• Use in bedrooms or for windows that face streets or neighbours

THICK GLASS
• Glass that is 10mm or above has increased acoustic performance
• Reduce low frequency sounds like traffic and common neighbourhood noise

LAMINATED GLASS
• Looks the same as ordinary glass
• The interlayer between the pieces of glass provides a noise dampening effect
• Acoustic laminate is available to provide the performance of thicker glass in thinner options
• Provides security, noise control and UV protection

DOUBLE GLAZING
• Can be used where both energy efficiency and noise reduction is required
• Spacer width can be adjusted to enhance acoustic performance
• Can incorporate laminated glass for greater noise reduction

TO TURN YOUR HOME INTO A PEACEFUL SANCTUARY IT HAS TO BE SERENITY GLASS BY STEGBAR
SECURE
SAFETY & SECURITY GLASS
FOR COMPLETE PEACE OF MIND WHEN IT COMES TO PROTECTING BOTH YOUR HOME AND YOUR FAMILY, IT HAS TO BE STEGBAR SECURE GLASS

The Stegbar Secure Glass Range is in a league of its own when it comes to safety, providing you with added peace of mind.

Stegbar’s Secure range is the result of decades of engineering and design. Offering two types of Grade A safety glass, your home will benefit from maximum protection against accidental injury, attempted break-ins and severe weather conditions.

- Looks the same as ordinary glass
- Peace of mind knowing that secure glass provides extra security and protection
- Harder to break than ordinary glass

A. Clear Laminate
B. Toughened
C. Toned Laminate

FOR COMPLETE PEACE OF MIND WHEN IT COMES TO PROTECTING BOTH YOUR HOME AND YOUR FAMILY, IT HAS TO BE SECURE GLASS BY STEGBAR

Laminated Glass
- Interlayer bonds two pieces of glass together
- Stays in place if breakage does occur
- Provides security, noise control and UV protection

Toughened Glass
- Fractures into smaller particles to significantly reduce risk of injury
- Perfect for internal and external glass doors, and windows that face high schools or sports fields where balls can cause accidental damage
- Can withstand high temperatures
- Used in bushfire applications
PRIVATE PRIVACY GLASS
TO CREATE A SENSE OF COMPLETE PRIVACY IN YOUR HOME, IT HAS TO BE STEGBAR PRIVATE GLASS

A. Acid Etched
B. Translucent
C. Satinlite
D. Cathedral

PRIVATE GLASS

THE STEGBAR PRIVATE GLASS RANGE IS VERSATILE ENOUGH TO SATISFY THE TASTES OF ANY HOMEOWNER.

With varying levels of privacy via frosting, textures or laminating techniques, Stegbar’s Private Glass range is perfect for those desiring a sense of inclusion in their bathrooms, bedrooms and entrances.

- Allows light into a room while still maintaining privacy
- Excellent for use in bathrooms, entry doors, internal doors or bedrooms
- Can be used for windows in high density housing or windows that face busy streets for extra privacy

TRANSLUCENT
- Laminated crisp white frosted look
- The interlayer between two pieces of glass provides the frosted effect
- Grade A Safety glass

ACID ETCHED
- Translucent satin matte finish
- Can be toughened as Grade A Safety
- Available in a low iron option for added clarity

TEXTURED GLASS
- Great for light diffusion, privacy or decorative
- Can be laminated or toughened as Grade A Safety
- Available in Satinlite, Cathedral and Spotswood

TO CREATE A SENSE OF COMPLETE PRIVACY IN YOUR HOME, IT HAS TO BE PRIVATE GLASS BY STEGBAR
IT’S NOT ONLY GLASS YOU NEED TO CONSIDER WHEN SELECTING THE RIGHT WINDOW. WINDOW FRAMES, ESPECIALLY THE MATERIAL THEY ARE CONSTRUCTED OF, PLAY A SIGNIFICANT ROLE IN THE OVERALL ENERGY EFFICIENCY AND ACOUSTIC RATING OF YOUR WINDOW.

All Stegbar windows and doors use key lockable hardware that is designed to improve the security of your home.

**SITELINE**
- Durability of aluminium on the outside and warmth of cedar on the inside
- One of the leading thermal composite frames available
- Western Red Cedar is effective at absorbing sound

**TIMBER**
- Western Red Cedar can be painted or stained
- A natural insulator and effective in absorbing sound
- From certified sustainable managed forests
- Highly energy efficient when paired with the right glazing

**ALUMINIUM**
- Durable with virtually zero maintenance
- Use energy efficient glass to increase performance
- Alumiere Suite provides excellent acoustic performance and wind and water ratings

STEGBAR’S RANGE OF FRAMES WILL BOTH COMPLEMENT YOUR HOME AND COMPLIMENT YOUR OVERALL ENERGY EFFICIENCY.
